Building Ventures Around
Community Energy Challenges

Call to Aspiring and Experienced Entrepreneurs!

What is DOE Boost?

DOE Boost is a partnership between **Sandia National Laboratories** and **FedTech** to establish centers of innovation and entrepreneurship. **Be empowered to launch a startup with national laboratory technology, gain critical business and technical skill, and help solve pressing energy challenges.** The DOE Boost platform is funded by DOE's Technology Commercialization Fund administered by the Office of Technology Transitions.

What Makes DOE Boost Unique?

- Access to DOE lab-created technology, including the inventors of your technology.
- Mentorship from seasoned entrepreneurs, technologists, and executives.
- Access to resources from Sandia National Laboratories' and FedTech's ecosystems.
- The chance to license your assigned technology and launch a spinout company!

Program Time Commitment and Roadmap

Entrepreneurs should expect to commit 15-20 hours per week.

Who is DOE Boost Looking For?

We are interested in entrepreneurs with diverse backgrounds and skills, such as:

- Technologists
- Spokespeople
- Businesspeople
- Creative Thinkers
- Operators
- Applicants who have no prior experience in government tech transfer

How Does it Work?

Pressing community energy challenges are identified, aiding in the selection of relevant IP.

Participants are matched with a novel technology from DOE Labs.

Through coaching, customer discovery, and workshops, participants create use cases for their matched technology.

Teams of entrepreneurs determine the viability of their technology's commercialization.

Successful teams have the chance to license their technology from the labs they have worked with.
